

Team Developer 6.0-SP5

Key	Summary
TD-9130	"SalTblSetRange(hWndTbl, nMin, nMax) doesn't reset colors for rows out of nMax."
TD-9230	Drop Down column bug
TD-14437	Groupbox transparency issue when using frames
TD-14527	MessageBox keyboard navigation to change focused button issue - tab/arrow keys are not taken
TD-14693	"When animating through code (even slow animate), the CPU usage stays steady at 100%"
TD-15089	WPF - Invalid dateTime for table colums when using EU format and US Regional settings
TD-15117	Menu text changed by VisMenuSetText() is reset after opening MDI child windows
TD-15145	Connection failure error 03729 when using Arabic (Egypt) locale
TD-15182	Dynamic Menu : difference between PopupMenu and Menu Context
TD-15210	Instance variable from a General Window Class used in SQL into clause not found
TD-15242	Background color bleeding in a specific scenario for data field only on SEVEN
TD-15259	"TD GRID issue: calling SalGridSetCellPicture() up to 24K times is crashing Q Open Table with ""All Files (*.*) *.* "" msg. box"
TD-15363	SalReportPrint is not working in WPF Application
TD-15372	Ribbon Bar problem with included table windows
TD-15400	TD crashes when Input mask of data field is greater than 65 characters
TD-15418	"GRID: SallsWindowVisible() is not correctly returning Bool. T/F for a grid column that is hidden by right-click column title, Columns/X and unchecking that column #"
TD-15502	WIn32 App with included .NET assembly runs only in TD6.0 installation directory
TD-15547	Empty return of the SalSendClassMessage(SAM_Close) in .NET should be true to comply with w32 behavior
TD-15560	ComboBox instance from a class shows a rolling/repeat error of a selected value when scrolling the combo up and down
TD-15585	Migration : Different behavior relating to painting / refresh of a form
TD-15611	"WPF -- with a table window number column Format = '#0' and Input Mask = '99999' displays as 'x', but setting the focus on a column cell displays 'x.00'"
TD-15612	WPF -- with SAM_Validate trapped on a table window column as soon as you click in the column the msg. is sent
TD-15617	Application stops during printing
TD-15634	debug 6.0 random crash critical for IBS
TD-15638	"Report Builder Design-Time: Changing the Content value of an Input Item is not retained. Additionally, the TAB key does not work to move"
TD-15659	Hovering over popup menu being open by SalTrackPopupMenu results in selecting hovered table window rows
TD-15663	There is a difference in the size of dialogs and tabs
TD-15665	SalCenterWindow dual monitor issues
TD-15682	"ReportBuilder: Preview mode -- cursor keys Page Up/Down, and Left/Right do not scroll the preview window. Worked OK in v4.2 and (user reports) v3.0."
TD-15685	WPF : Radio buttons are not getting selected within group box

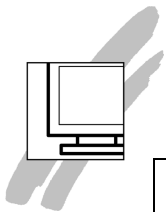

Team Developer 6.0-SP5

TD-15718	"Crash when reading in a file in text format with too many items in the File Includes section, even though all of them are commented out"
TD-15732	TD is increasing the height of a Data Field because fields' font size is set to 72 pts
TD-15736	Rich-Text control in ReportBuilder: You are not able to copy/paste this control in the QRP report
TD-15833	.NET compilation error when passing a functional class as parameter to an internal function when the object is an array
TD-15879	SAM NavResize -- trapping this msg. causes TD to crash
TD-15895	WINDOWS 7 AERO / BASIC theme only sizing issue
TD-15910	"Context menu does not use resource for its picture in WIN32, it does for .NET APP"
TD-15915	New Sal function to mimic VisListGetIndexFromPoint with new tree control
TD-15926	Plain Text emails only: Received email using SalMail class are missing German umlaut
TD-15935	"With a form's Accessories Enabled, a data field's background color cannot be changed to the Windows System Color"
TD-15983	Checkboxes that are Disabled or Read-Only look the same. There is no distinction between them like there is with a datafield
TD-15997	"When a docked dialog box in a form is clicked on, the form's title bar loses the theme color"
TD-16004	Difference running in WPF vs.Win32 mode in display of picture control in form window
TD-16006	"Report --> PDF file Barcode issue: If Barcode has fixed value ""*I00I*"" then no barcodes in the PDF file appear. If changed from ""*I00I*"" to ""*E00E*"", all Barcodes are ok."
TD-16013	Painting issues in German version of Windows XP when using a second monitor
TD-16016	Undocumented (internal) TD function SalStrFull() causes a crash when a (half-width) space is passed to SalStrFull as a argument
TD-16018	Unable to set default printer to a share printer on TS when the current default printer is redirected
TD-16019	"WPF MENU Exception with an instance of a Form Window Class with a menu item in it, if there is an action behind the Menu Actions part, exception is thrown"
TD-16022	ORACLE LONG DATA truncation
TD-16025	GDI Objects keeps increasing in loop of Create/Destroy MDI child form window
TD-16029	SAM_Destroy is not sent to a table window created on a form by calling SalCreateWindowEx()
TD-16040	Creating multiple forms with Rich Text Control in it takes longer with every instance of a form that gets created
TD-16050	"SybWriteText() - Inserting or updating Full-Width Hiragana (ex. ""???""), The characters ""BOD0"" is stored instead of ""???""."
TD-16061	Crash with MTS with 2 MTS COM server DLL test case where one DLL method is calling the second one
TD-16065	Unexpected behavior when checking/unchecking a check box with the space bar key
TD-16066	Unexpected behavior when selecting/unselecting an option button
TD-16067	Incorrect Input when using Romansh (Switzerland) keyboard
TD-16068	Unable to consume a web service with two way certification

Team Developer 6.0-SP5

TD-16075	"TAB BAR: With radio buttons on the tab bar, if the user navigates to a radio button using the cursor keys SAM_Click is not sent to the radio button."
TD-16080	"COM Class issue: User's EXE test case fails with error ""Attempt to manipulate a class object instantiated in the main app..."""
TD-16096	If you change the focus to the ActiveX Control after editing a data field won't fire the data field SAM Validate
TD-16097	Win32 : Pushbutton with Appearance=Flat Look has bkgnd. color != parent bkgnd color
TD-16099	VisTbIFreeBitmap() causes the application to crash
TD-16106	VT cColorComboBox crashes for dialog modal/modeless
TD-16113	"Bogus msg. box ""All Files (*.*) *.* "" error on call to SalTreeGetItemData() if param. 2 hItem = 0"
TD-16117	Looping through tab page children is not consistent with outline tab page association
TD-16118	"ReportBuilder: With a large number (578) of fonts for another program installed on a machine, opening test case QRP file is causing RB to crash"
TD-16121	"GRID: Error Msg ""Empty Array"" or ""All Files (*.*) *.* "" calling SalGridDataExport(), depending on whether a grid column is Visible=No at design-time"
TD-16123	"Enable ActiveX to receive focus when ""tabbing"" through objects"
TD-16139	VisListShowOutline() doesn't work when a cOutlineListBox instance is associated to a Tab Control
TD-16140	RB RTC and RichText file(s): PREVIEW mode -- test cases are missing the last lines of the RichText file
TD-16141	RB RTC and RichText file(s): PRINT output -- test cases are missing page footer and/or RTF file content
TD-16142	RB RTC and RichText file(s): PDF output -- test cases are missing page footer and/or RTF file content
TD-16145	TD Listbox Extensions: crash running test case in class cListBoxExtension VTM Create msg
TD-16156	"When setting ""bStaticsAsWindows = TRUE"" Background Text objects loose transparency"
TD-16160	Mnemonics not working on TAB BAR
TD-16164	"WPF: TD cannot find a Menu BMP image if it is not in the current folder with the APP, even if the BMP is in the PATH, like in TD v6 install folder. OK in Win32."
TD-16174	TD crash MS SQL Server running a Stored Procedure with bind var names that are long
TD-16197	Regression: Problem on Frame & Groupbox repaint at parent form's create time
TD-16206	Web Service Wizard is not able to import data types from XSD
TD-16207	With right-justified datafield the cursor encroaches on the rightmost character
TD-16212	NET Explorer Wizard: Generating an APL from mscorlib assembly is giving error when APL is compiled
TD-16241	Exception during creating child objects
TD-16242	Application System-profiler2.app: OLE Report Error during printing
TD-16258	MDI form windows inappropriately maximized on single click of the caption
TD-16272	"GRID: VisTbISetRowPicture(..., ROW_UnusedFlagX, ...) does not display a BMP on a GRID row header. Works OK for the table window."

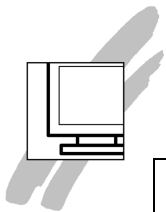

Team Developer 6.0-SP5

TD-16273	"GRID: calling VisTblSetRowPicture(..., ROW_New, ...) does set a BMP image on the row header, but not current context row"
TD-16316	Running Xbap from file systems aborts with InvalidDeploymentException
TD-16323	Focus/Default PB issue: when dlg. box is created in SAM_Validate (sent when user clicks tab key after editing) 2nd time the dlg's OK button is not default any longer
TD-16336	SAM_Destroy is not sent to the children of a modeless dlg. box when it is an MDI child
TD-16354	WPF: invalid date format when control is inherited
TD-16366	Upwards regression of groupboxes design
TD-16367	Inconsistency styles for Option button between when placed in toolbar comparing to when placed in Forms
TD-16381	Calling VisMenuUncheck() on an UNchecked menu item causes that it gets checked
TD-16408	cCalendarDropDown doesn't show a drop down list
TD-16430	GRID - WM_LBUTTONDOWN msg. not sent when you click in the grid. This works OK for the Table Window
TD-16444	"When in Oracle 10g/11g a column is defined as CHAR(1), a PLSQL-proc with a dyn. array will cause alternate array elements to be dropped"
TD-16450	Enhanced functions for treeview control
TD-16454	Crash in SalTrackPopupMenu() with Named menu item when this is evaluated: Enabled When: hWndFrame.clxFileClipper..GetSelectedCount() > 0
TD-16460	"Table Window: If the table window is split, you cannot hide row 0 (first row) by calling SalTblSetRowFlags(hWndItem, nItem, ROW Hidden, TRUE)"
TD-16488	SYBASE concatenation failure only with long string bind variable > = 255
TD-16509	Flashing static objects
TD-16510	Calling SqlSetLongBindDatatype() on multiple SQL Handles to fetch and execute binary data causes that the application crash
TD-16540	Grid Versus Table Window issues inserting row having Drop Down List type columns
TD-16570	SP4 version changes
TD-16573	VisMenuGetText() does not return a menu's text for the Windows menu if you reference one of the open forms' names in the MDI window
TD-16579	MB_YesNoCancel constants not provided/translated for Swedish and Norwegian
TD-16582	"Adding huge amount of hyperlink rows (10,000) to a grid crashes the app"
TD-16589	WPF : Memory corruption from SqlPrepareAndExecute when using empty strings
TD-16594	Missing Horizontal scrollbar on child form when parent is resized
TD-16595	WPF : VALIDATE_Cancel is not honoured
TD-16596	Allow Active X controls to process SAM_SetFocus
TD-16597	Allow Active X controls to process SAM_KillFocus
TD-16598	Group Box/Background Text in MDI Toolbar Contents: Crash/hang when running test case from the IDE
TD-16629	Check in to svn
TD-16630	WM_RBUTTON* and WM_LBUTTONDOWN* messages are not being trapped by Tree Control

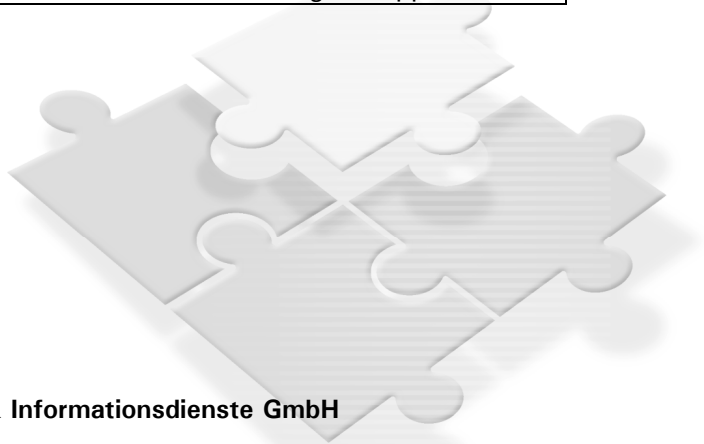

Team Developer 6.0-SP5

TD-16642	"Oracle boundary condition bug in LONGBUFFER setting, with data truncation"
TD-16646	Grid repaint error when the grid is grouped and columns are changed programmatically
TD-16648	"ORACLE 10g/11g: SqlGetParameterAll(gv_hSqlLob, DBP_All_LONGBUFFER, df_SqlIni, gv_sDummy, TRUE) returns 1/2 of INI or Set amount"
TD-16649	"WPF OdrPrepareProc() runtime error in MS SQL Server for a SP with this proc param: ""{ :nReturn = call sp test SF19050err(:nParam)}"""
TD-16650	Memory allocation for longbuffer is double what it needs to be under Oracle
TD-16653	Hang/crash when dlg. box SAM_CreateComplete has SalEndDialog() call
TD-16658	Application crashes when ran in a Japanese version of Windows
TD-16670	"Oracle Stored Procedure: If SP created as ""(PSTRING OUT CHAR)"" PLSQLCommand() only fetches first character. If created as ""(PSTRING OUT VARCHAR2)"" - OK."
TD-16684	cQuickTabs change incorrectly background colors of Group Boxes with certain themes
TD-16690	Undo a checkin and redo it for two files for TD16642 and TD16650
TD-16692	Embedded group box issue odd flickering at runtime
TD-16693	"ActiveX Tab Stop property in a TAB container, changes the ""tabbing"" behavior of TBLW"
TD-16698	Unexpected behavior for cOutlineComboBox when ran in a Japanese version of Windows
TD-16707	Some messages in profui Japanese resource file are still English. Need to translate them
TD-16715	WPF : OdrPrepareNextResults reports undefined symbol
TD-16723	"Large loops causes that the application is set as ""Not Responding"""
TD-16727	ProfUI Grid memory release - CLONE From - Crash after running Helmut's app from the IDE
TD-16728	SalTabGetPageIndex() always returns -1
TD-16737	ROUTER (ORACLE CLOB/BLOB columns): TD Crash with INSERT of a text or binary data > 100 meg
TD-16746	option button doesn't render image correctly
TD-16749	SAM Activate Message not correctly sent with Dialog boxes
TD-16758	TD crash/hang MS SQL Server running a Stored Procedure with bind var names that are long or short. Part 3
TD-16766	SAM Activate is not being fired when window is being activated
TD-16770	ORACLE LONG DATA truncation - Fetching a BLOB (of character data) into a Long String truncates last char
TD-16771	ORACLE SQL Error 1465: When SqlExecute of a Long String into an Oracle column of type BLOB
TD-16781	VTM MenuSelect not received in MDI child window
TD-16784	Controls flickering when group box over background text is present on tab page
TD-16785	Issue in painting background of Group Box when placed on tab page
TD-16837	SqlBase SqlExecute() crashing when executing a store procedure
TD-16839	Object Nationalizer Crash saving outline
TD-16840	"WIN32 : Background text, Data Fields and check boxes on toolbar shows painting issues"

Team Developer 6.0-SP5

TD-16848	The application stops responding when clicking on a top-level window different than the one that host Report Builder Active X
TD-16853	ORACLE OCI_NODATA using SqlPLSQLCommand() with IN CHAR() TYPES
TD-16868	ORACLE LONG DATA truncation - Fetching a BLOB (of character data) into a Long String truncates last char
TD-16890	WPF - SAM_Destroy is not sent to the children of a modeless dlg. box when it is an MDI child
TD-16893	Image on option button : Default behaviour is changed
TD-16900	.NET compile error for unsupported classes not getting logged
TD-16909	CLONE - Looping through tab page children is not consistent with outline tab page association
TD-16927	QuickTab migration wizard should not be part of Report Builder 6.0 EDP distribution
TD-16932	CLONE - .NET compile error for unsupported classes not getting logged
TD-16939	WM_INITMENUPOPUP not sent to MDI
TD-16946	Backport - Unable to switch back to an SQLWindows application from the task bar
TD-16952	Change documentation on return value of SalPictGetString and SalPictGetBinary
TD-16962	"Static text won't get repainted after calling SalSetWindowLabelText() ONLY IF ""bStaticsAsWindows = TRUE"""
TD-16974	Fix OamHeap assertions
TD-17058	SQLSERVER crash on selecting with where clause using array of UDV with instance variable as bind
TD-17062	WIN32 : Application with tab pages crashes on closing
TD-17063	WPF : Overflow exception when trying open Grid window
TD-17065	Image display on button is messed up
TD-17066	WPF : Unhandled SQLWindows error when closing the application
