AGENDA: Friday, 24. October 2014
TD Mobile Day

	Track 1 Room: Köpenick	Track 2 Room: Pankow
8:30 – 9:10	Building Data Driven Apps Without Coding (SQL Databases, nosql Databases, data operations and data connections) Horst de Lorenzi	SQLBase 12.0 – multi-threading Mike Vandine
9:10-9:50	Building Apps Based on a Web Services Architecture Jean-Marc Gemperle	SQLBase 12.0 and TD Mobile Gary Bettencourt & Mike Vandine
9:50-10:20	Great Visual Data Representation Using the new TD Mobile Chart Control Helmut Reimann	New, easy to use database clients Mike Vandine
10:20-10:40	*Coffee Break*	
10:40-11:10	Advanced: Building Your Own Custom Data Connections for TD Mobile Horst de Lorenzi	New SQLBase EDP deployment tool Mike Vandine
11:10-11:40	Planning and building multi-page offline apps using TD Mobile Helmut Reimann	Designing Web reports for Team Developer 6.3 and TD Mobile Ana Paula Bonani
11:40-12:10	Creating maps and location-aware applications in TD Mobile (GPS, map control) Martin Teetz	Prepare your Team Developer code for TD Mobile projects Helmut Reimann
12:10-13:10	*Lunch*	
13:10-13:40	Using native device features (accelerometer, signature capture, orientation system bind, bar code scanning) Gary Bettencourt	New GUI features in Team Developer 6.3 part (Ribbon, grid, etc) Martin Teetz
13:40-14:10	Writing Secure Applications (review existing security features, authentication, etc., new role binding, checking roles in server-side code, role protection at the Operation level) Helmut Reimann	Programming and running Web reports with Team Developer 6.3 and TD Mobile Ana Paula Bonani
14:10-14:40	Creating International Apps (new localization pane, review basics) Horst de Lorenzi	TD Mobile Client-Side scripting Gary Bettencourt
14:40-15:00	*Coffee Break*	
15:00-15:40	Web App Best Practices (use style sheets, javascript files to increase caching, new server error event, writing efficient JavaScript, leveraging async nature of Invoke to do multiple loads of data at the same time, improve load time) Gary Bettencourt	
15:40-16:20	Bindings (how they work, validation, etc.) Horst de Lorenzi	Client-side debugging Gary Bettencourt
16:20-16:50	TD Mobile custom error handling Gary Bettencourt	
16:50	Wrap-up	

The session schedule and content are subject to change.
