Key	Summary
TD-9382	Hotkey toolbar failure
TD-16252	Grid column setting EM_SETREADONLY would work for Table Window but not Grid
TD-17591	Application crashes when selecting a row header after calling SalTblDeleteRow( ) within a grid with multiple hidden rows
TD-18145	Application won't stop at breakpoint
TD-18235	Aligning picture object and vertical line items using the attribute inspector doesn't show correctly in the layout
TD-18494	When a Background Text and a Frame object are both selected, the selection indicators (the small blue squares) disappear
TD-18512	GRID and Selecting > 1 row with the mouse: Clicking row header and dragging down does not select > 1 row. Works OK for the Table Window
TD-18556	GRID with pre-defined column and SalGridSetAltRowBackColors(): when 2nd column filled with SalTblPopulate query, GRID is in an endless painting loop
TD-18592	GRID, font type and size * SalTblQueryColumnWidth() -- Width return varies depending on font and size. For table window, width is constant based on size
TD-18647	Implement a notification mechanism for Tooltips like the one used by QuickToolTips
TD-18898	GRID & SalGridDataImport(): If there are blank items in a TXT or CSV file, then on Import those blank "" values are ignored and non-blank values are left-filled in the grid row
TD-19081	SalTblReset does not remove row selected flag from the grid.
TD-19260	Grid column with black text is not readable when selected to modify
TD-19261	Grid non standard column does not receive SAM_KillFocus
TD-19312	The down arrow in a drop down column of a grid scrolls when hovering mouse pointer over it
TD-19314	Max Data Length of a data field is incorrect when checked using cdk function GetAttributeX
TD-19325	A complex application crashes due to a change in a comment line.
TD-19446	Request to be able to set the width of the list portion on combo box column
TD-19495	Allow mtable to continue working with SalTbl implementation
TD-19557	Poor performance populating child table in 6.1SP3, in complex scenario
TD-19599	Referencing datafield with BackColor=3D Face Color, in SAM_FetchRow, hides values populated in table window
TD-19602	SAM_Click sent to a grid column using SalSendMsg, is not received.
TD-19603	Checkbox column does not generate SAM_Validate message in a grid
TD-19604	SAM_RowValidate is generated multiple times when the focus is moved from a checkbox column
TD-19612	SAM_EndCellTab is not fired when tabbing in a grid
TD-19613	When changing multi line column titles in a grid, other column headings are not considered
TD-19654	Jumping check-box in TableWindow when VisTblAutoSizeColumn()
TD-19661	Customized context menu does not appear on popup edit table columns
TD-19725	TD IDE does not get focus after launching
TD-19759	SalEditCanUndo and SalEditUndo do not work correctly on combo box
TD-19768	Unable to use StaticResource to initialize the Caption of a Modeless Dialog docked to an MDI
TD-19769	Team Developer crashes after displaying several XAML related errors
TD-19777	Browse All Classes does not display the current source file
TD-19780	Picture Object grows in size when it is moved via the TD Menu: Layout | Align Edges
TD-19782	Inconsistent behavior for Picture Objects when using the «Tile to Parent» attribute
TD-19790	Navigation Bar doesn't show scroll bars in WPF mode
TD-19796	When language/region is English/United Kingdom, default currency format is £#,##0.00;'($'#,##0.00')'
TD-19808	SalTblObjectsFromPoint always returns row=-1 and the flag

TBL_YOverNormalRows is always set
TD-19811   WPF compiled app does not cause compile time error when using
UDV as window handle
TD-19812   Picture formatting is not working in TD
TD-19820   Populating a table with many text columns from a table that has
large number of rows causes TD to freeze or crash
TD-19821   Report created as pdf is causing header to overlap with data
TD-19822   Gupta.TD.Runtime.System.resources.dll is missing from netbit\it
directory
TD-19826   Initial state maximized is not observed by WPF mode
TD-19830   Active Coding Assistant does not display the parameter list when
used on MDI child
TD-19832   DATE TIME picker spin up/down would not spin the day but the
hour depending the wideness of the control
TD-19835   The 'Tools' Toolbar, when TD IDE is re-opened, is missing icons
TD-19837   SAM_Validate has few issues on grid cells
TD-19839   SalTblSetFocusRow deletes the Row_Selected flag
TD-19840   When grid is colored with SalGridSetAltRowBackColors selected,
rows may become unreadable
TD-19842   A dialog box created over the top of another dialog box has the
bottom objects 'leaked' into it.
TD-19855   Closing all tabs in the IDE does not close the very first tab
TD-19856   SalRibbonMinimize does not work
TD-19870   Concatenating the result of a SalStrToWideChar() no longer works
TD-19871   Concatenation of SalBinaryToString() converted string would
truncate last char of the converted string
TD-19872   Check in/Check out TD menu item generates "Unable to locate the
requested application" error
TD-19877   SalDlgSetDockSlide: Wrong layout after first call of function
TD-19879   Nested tab bars makes TD app hang
TD-19897   New chart control has gaps in backward compatibility
TD-19899   cQuickGraph colors and look and feel not identical to TD5.2
TD-19906   The default StartMenu path in Deploy62 is set to "Unify\Team
Developer 6.2 Deployment" instead of "Gupta\Team Developer 6.2 Deployment"
TD-19907   GDI leak with SalFontSet
TD-19909   Using new chart control causes compile error
TD-19912   SalReportPrintToFile does not print pictures
TD-19924   Painting problem with undocked toolbars after closing them
TD-19925   Deploy62 is not installing SalMail62.dll
TD-19927   Using DateTime constant in a sql displays'command not properly
ended'in WPF
TD-19952   Provide a .NET 4 .NET Explorer and GAIL interface
TD-19953   .NET only ccGraph.Draw( ) index out of bound exception
TD-19959   Focus issue with Grid and Popup cell when using accelerator key
TD-19962   The order in which the SAM_CreateComplete is fired is incorrect
in WPF mode
TD-19973   SalReportPrintToFile and SalReportPrintToFileEx creates files
that are much larger
TD-19982   Print difference between SalReportPrint and
SalReportPrintToFile/SalReportPrintToFileEx
TD-19989   When a customer control class is derived from a vt control, it
returns Unknown base class specified
TD-19990   Active Coding Assistant does not display right parameters when
function from a functional class is used
TD-19996   SalGetBufferLength returns incorrect number after selecting a
long varchar column
TD-19997   SalTblSetCellBackColor does not work after auto sizing the
column using VisTblAutoSizeColumn
TD-20003   When a dialog is docked and the focus is on a field in the
dialog, the window doesn't come to the foreground
TD-20008   Long string doesn't get set to NULL in the database when
setzerolengthstringstonull is set
TD-20025   Compatibility issues between Chart Control and old graph control
TD-20046   .NET only : SalTblSetRow(hwndForm, TBL_SetNextRow) will not
return the row number past the end row
TD-20062   SqlSetLongBindDatatype cuts last byte from long string variable
TD-20063   SQL error with binary variable
TD-20067   Need Enums to be imported from .axl files

```
TD-20069        RIBBON BAR Menu action not triggered in specific scenario
TD-20076        .NET string constants evaluation failing in specific scenario
TD-20077        Docked windows that have the focus when minimized cannot be
restored on XP and WIN2003
TD-20078        Implement an equivalent SAM_Click message for tree
TD-20079        A tree doesn't get some messages
TD-20088        cQuickGraph YAxisMax Setting is ignored
TD-20089        cQuickGraph YAxis Labels does not show Scientific Notation
TD-20091        .NET Unhandled error (RUNTIME error) in specific scenario that
does not happen in WIN32
TD-20092        QuickGraph: PatternData Setting for bar charts are ignored
TD-20093        QuickGraph:Line graph style 6 which shows lines and sticks not
working
TD-20094        Chart does not display correctly in .Net
TD-20108        ThickLines / PatternData / SymbolSize properties are ignored in
graphs
TD-20111        cQuickGraph .NET ignores DataLabelText array
TD-20112        cQuickGraph .NET No Lines Drawn Problem
TD-20113        TD under .NET compiler ignores YAxisMin setting
TD-20119        Column DropDown list Unwanted Behavior
TD-20122        SalWindowApplyDockState does not save the state correctly
TD-20128        Debugger/Breakpoint setting and SalPostMsg() in form SAM_Create
and SAM_CreateComplete -- TD is processing SAL lines before hitting BP
TD-20129        SalReportView() of QRP embedding RTF would not show when using
RDP / TS
TD-20131        Drop down grid column removes the current selection when dropped
TD-20139        Quick Tabs Migration Wizard fail migrating Tile & Margins
Properties
TD-20171        SaltblFindNextRow(... ROW_Selected...) does not work after
SalTblDeleteRow in a grid
TD-20175        SalGridWriteState()/SalGridApplyState() would not restore state
properly when grouping by box
TD-20185        The height of a Grid increases when restoring the grid state
TD-20189        Unable to sign TD full trust application with CA authority
certificate
TD-20204        Tooltip for the grid and the table window does not show
correctly if there is a hidden column
TD-20212        Dragging and Moving a Grid Column to the right side doesn't work
correctly.
TD-20243        After a dialog or a form is closed, focus will be reset to the
first field in the tab order
TD-20245        Last disabled checkbox has painting issues
TD-20259        Named Exception from a library gets duplicated every time the
parent app is refreshed
TD-20263        Need to add to SP Release Note - class default data type is not
picked up from the parent column which belongs to a grid class.
TD-20266        SalTblSetFocusRow on right click on the grid does not always
select row
TD-20269        Jpg files gives 'resource not found' error unless they are in
the same directory as the app
TD-20287        SalXMLSerializeUDV() and SalXMLDeserializeUDV() should be
supported under .NET
TD-20289        VisTblFindString function does not work
TD-20298        SalTblSetRowFlags and SalTblSetTableFlags Do Not Work Properly
TD-20359        Add function in QuickReports to enable/disable "Intl Number
Display"
TD-20364        Named tool bar buttons do not show up if the MDI has a toolbar
TD-20433        Graph Y axis title is getting cut off when printing
TD-20438        UfcChartPrint clips left edge of chart control for some printers
```
