Key	Summary
TD-10161	Oracle router error 404: standard SQL error handler uses the mapped error.sql error code instead of the real back-end error
TD-15322	SetTipText method doesn't allow hwnd as parameter but only as an sText
TD-16814	TOM would not work against SQLSERVER 2008 as MS no longer supports sp_helpgroup
TD-17724	Unable to associate a Tab Control to a Tab Page within another Tab Control from the Outline
TD-18106	NAVIGATION BAR & DESIGN-TIME Issue: CRASH in design-time when clicking Dlg. Box Layout with adding nav. bar and adding any control as a Pane Child
TD-18157	"GRID and VisTblSetRowColorEx() -- when this Vis function is called, then later a selection of the GRID row causes the cells' text to be unreadable"
TD-18159	RIBBON BAR Enabled When/Checked When: Bool. being evaluated 10-20 times a second even when form RB is hidden or form is minimized
TD-18264	"NAVIGATION BAR: If you delete a pane, then recreate it, you are no longer able to associate another control to it"
TD-18288	Unable to compile any .NET app : internal error on temp directory \.baml\.xaml
TD-18356	"SalTblCreateColumnFromClass( ) ignores the value for ""Visible"" property"
TD-18380	Loading Resource Icons into a Tree Control causes loss of resolution
TD-18381	"Grid Control won't size correctly when ""Summarized Bar Enabled"" is set to TRUE"
TD-18382	"SalTblCreateColumnFromClass( ) ignores ""Format"" property"
TD-18383	"Pressing the ""Delete"" and ""Backspace"" keys several times within an empty cell and then pressing the ""Tab"" key will cause that the ROW_Edited flag gets set"
TD-18698	A grid combo box that is hidden still shows its column list
TD-18704	Row_edit flag inconsistency with Grid and Table
TD-18858	Grid data value mixed up when using SalTblSetColumnPos()
TD-18937	Add functionality to add and retrieve headers from DBPipe to allow it to work in a WebSeal environment
TD-18999	Method Not Found: Unify.TD.Runtime.Flat.Sql.RollbackSession( )
TD-19771	WPF - Tool bar position property not working correctly
TD-19795	"In IDE menu Tools	Preferences, changing ""Default Applicaton File Extension"" has no effect"
TD-19823	Background colors of datafields are not picking up the background color per theme
TD-19898	SalGridPrintPreview makes column titles overlap if the title is spread over two lines
TD-20148	Grid column agregate Label not ajusted / aligned when grouping
TD-20197	Improve XMLLIB.APL so it compiles in .Net
TD-20203	"Layout mode: modifying the width/height of a picture control using the mouse, moves its X,Y position"
TD-20205	ONLINE DOC does not mention COM out or in process cannot use any UI (MODAL DLG etc...)
TD-20207	VisTblFindNumber function call does not work with .NET compiler option
TD-20213	The title bar on an inactive MDI window displays actively with Windows 7 and Windows Classic theme
TD-20215	SalFmtFormatNumber produces invalid character if German regional setting is on and second parameter is a function
TD-20236	Multiline Text Box Background Color Not Set Proper
TD-20246	SalNavSetPaneIcon does not work when PIC_FormatIcon is set as format
TD-20257	"VisWinShow(ghwnd, SHOW_Hidden) Does Not Hide Window"
TD-20282	SalTabAddPageNoSelect makes the application hang if the grid on the page added hasn't got the summary bar enabled
TD-20286	"""Error encountered assembling"" a TD .NET Web Service"
TD-20294	Grid/TableWindow Check Box Column Does Not Work Properly Under NET Option
TD-20301	Strange Behaviour of Frames with Borders
TD-20341	Cannot Compile Imported .NET Explorer Libraries

TD-20342   SalDisableApp / SalEnableApp in MDI blocks marking text in
textfields with mouse
TD-20357   Date Picker not taking any keyboard in input
TD-20358   TD 6.2 crashes when you delete a Data field that is associated
to a Nav Bar Pane.
TD-20363   SalTreeMoveUpItem & SalTreeGetSelectedItem not working properly
TD-20365   SalContextMenuSetPopup takes wrong position when dual monitor is
used
TD-20403   "When SqlPLSQLCommand is used to populate a sorted dropdown
list, many empty rows are displayed"
TD-20432   Grid returns 'I am not a container object' when trying to List
container object
TD-20448   Using Resource for Bitmaps
TD-20451   Deleting Rows in Grid-Control
TD-20452   Hiding Rows in Grid Control
TD-20453   Grid CellType: Radio Button
TD-20458   Grid shows incorrect Group Headers
TD-20463   Grid CellType: Progress
TD-20465   Next windows menu option does not work but the hot key ctrl + F6
works
TD-20469   Grid CellType: DateTime
TD-20470   Grid CellType: Duration
TD-20472   ODBC router retries login if the authentication fails
TD-20475   Grid and Table Windows do not inherit menu from class in .NET
TD-20476   Dialog tool bar position.
TD-20478   Forms on a dialog box created by function call SalCreateWindowEx
and hidden by SalHideWindow causes painting issue
TD-20480   It is not possible to disable the context menu of a dock context
window
TD-20482   Problem with SalDlgSaveFile() function
TD-20484   SalReportCmd() does not work .NET WPF
TD-20489   Grid coloring issue
TD-20490   SalStatusSetText() problem (WPF only)
TD-20491   Team Developer 6.2 Certification with Sybase 15.7
TD-20494   SalFileOpen behaviour has changed
TD-20503   Child table column titles are changed with VisTblSetRowColorEx
and VisTblSetCellColor functions
TD-20512   Cannot access inherited fields in class from a web service
TD-20541   Opening and displaying a bitmap in a picture control does not
work in .NET
TD-20543   Problem with the background text position in the form
TD-20554   Problem with Menu Keyboard Accelerator .NET
TD-20567   Problem with Resizing of Form-Windows that are created as
Child-Windows.
TD-20575   Application freezes with Named Toolbars
TD-20591   Custom WPF control developed in .NET 4.0 frame work doesn't work
with TD 6.2 WPF 4.0 compiler
TD-20592   Variable and object evaluation is partially working for .NET
applications
TD-20600   The state of the current (selected) pane of the navigation will
not be saved
TD-20611   SqlCreateSession() login issue when passing wrong credentials
initially
TD-20624   Sending some SAM-Messages to column in grid doesn't work on
Win32
TD-20628   Row validation fails on Grids
TD-20629   Validation of column fails on Grids
TD-20632   Incorrect order of fired messages
TD-20652   Add Transparent background attribute for Push Buttons and Option
Buttons
TD-20663   Oracle SQL error is different in TD6.2 and 4.2
TD-20674   List box displays unwanted space in the string which creates a
horizontal scroll
TD-20689   Tabbing in grid cells makes TD crash
TD-20702   The icons do not get compiled with the exe when specified in a
named toolbar
TD-20714   Error: Instance added to method's calling on .NET WPF
TD-20715   SqlSessionErrorInfo & SqlStatementErrorInfo Bug in .NET

TD-20717   Closing a modeless dialog with a tab bar control crashes TD
TD-20720   "Heap corruption (read access violation) with MDI, TABBAR and
DLG with progress bar"
TD-20721   OLEDB.NET - Oracle Stored Procedure call mistake
TD-20732   VT cMeter or native progress bar UI might be unresponsive
TD-20737   CLONE - Tabbing in grid cells makes TD crash
TD-20762   "TD's NativeXP theme does not show separators between tab pages
on tab control when using ""Standard"" style"
TD-20766   "When there are two dialogs with toolbar attached to a separate
tab bar, clicking on any object on a dialog causes a crash"
TD-20782   WS: Enable to add optional header to SOAP envelope
TD-20794   Document new SAM_FrameSize Message and transparent entry in
Background color
