

Key	Summary
SQLB-1567	Logfileprealloc doesn't pre-allocate the log file to full size
SQLB-1625	SQLBase 11 does not have the dynamic debugging facility (creating a log file 'on the fly')
SQLB-1897	Need to add Unicode Program data types to sqlbnn doc in api.pdf
SQLB-1942	sqldbn() not working as documented, only returning the FIRST DBNAME of a SB server...
SQLB-2010	An update of a long varchar is not reusing page space
SQLB-2015	Error 9010 (GCI CLO) when reading data from a large database and sending to a different one
SQLB-2028	Reported problem with certain non-English characters .NET provider
SQLB-2036	.NET data driver : InvalidCastException for string data type
SQLB-2038	EDP for 11.7 SP1 is missing the new DDEX files
SQLB-2041	Bugs in .NET Provider reported by Advo-Web
SQLB-2048	.NET driver considers some SQL commands to be stored procedures
SQLB-2049	SELECT query that uses @IF with Oracle outer join returns wrong number of rows
SQLB-2050	Having an index with null columns sometimes returns the wrong number of rows
SQLB-2055	A select with distinct and order by clause crashes the server
SQLB-2056	An alter table fails if a role exists
SQLB-2059	SQLBase to accept a bind of a datetime numeric that exceeds the maximum length
SQLB-2061	Check database reports corrupted index incorrectly
SQLB-2062	NOT NULL WITH DEFAULT puts nulls in NVARCHAR columns

SQLB-2063 Inserting a DateTime.MinValue (1.1.0001) in a column of type DATE actually inserts 1.1.2001

SQLB-2065 Fix concurrency bug that causes the server to hang

SQLB-2068 .NET driver fails with a select on a table with a special character

SQLB-2069 Wrong results are given for a select - after update statistics, correct results are given

SQLB-2075 Server hanging twice a day

SQLB-2077 An unload from a 11.6 dataabase where a system table has had a column added fails with 11.7

SQLB-2078 SQLBaseOLEDB from ADO crashes the server

SQLB-2080 Command line parameters to stop and unregister a service don't seem to work

SQLB-2083 Problem with creating a sqlbasedatareader and the field in the database has null value

SQLB-2085 Triggers are corrupted on a 'croatia' database

SQLB-2092 Japan country setting doesn't work with .NET provider
