

Fixliste_TD6.1SP5.txt

| Key | Summary |
|----------|---|
| TD-14429 | "VT.H file feedback from forum customer: ""declaration uses the LPCTSTR type specifier, which is not 100% correct."" |
| TD-14591 | "v6 win32/WPF: app. control Tooltips are not themed. ""Same old style"" to the forum user, not updated like TD IDE tooltips" |
| TD-14973 | TD 6.0 SP1 IDE Title Bar not updating |
| TD-15071 | [TD60 win32] MDI Caption Bar painting problem with older themes |
| TD-15208 | Themed button text inconsistency |
| TD-15322 | SetTipText method doesn't allow hwnd as parameter but only as an stext |
| TD-15342 | QuickToolTipPushButton - SetTipText method doesn't clear tooltips set at design time |
| TD-15705 | The state of some menu items does not correspond to the state of their toolbar counterpart |
| TD-15727 | "If Properties are called and the Attribute Inspector is part of a tab within a docked dialog, the tab will not get activated" |
| TD-16759 | IDE toolbars preferences dialog from Toobars is not themed. International computer not displaying in English |
| TD-16815 | "TOM SQLSERVER: when creating a FIRST TIME TMADM user, password must be reset in SQLSERVER" |
| TD-16958 | "OUTLINER: with either ""OR"" or ""AND"" (lower or uppercase) in a Background Text or Group Box, the title appears in blue font in the outline" |
| TD-17092 | "Remove initial space character from IDE context menu: Variables, Locals and Auto" |
| TD-17098 | "Missing ""Alt+F"" and ""Alt+P"" shortcuts to switch from ""Find"" and ""Replace"" tabs" |
| TD-17378 | "Layout View - Dropping an Option Button on a form will display the button in its runtime ""Orange"" selected color" |
| TD-17383 | Unexpected behavior when changing Outline Font |
| TD-17483 | Background Text items are not getting refreshed when a change is made. Design-time and run-time issue. |
| TD-17781 | WM_SIZE message sent to MDI child form: 2 issues - wParam = 0 always & WM_SIZE msg. sent 2 times for each size change of the form |
| TD-18999 | Method Not Found: Unify.TD.Runtime.Flat.Sql.RollbackSession() |
| TD-19208 | Border property set to **None** on a ReportBuilder Box is ignored by SalReportPrintToFile() and SalReportPrintToFileEx() |
| TD-19660 | SalTblSetColumnFlags() / COL_ReadOnly not working for GRID |
| TD-19771 | WPF - Tool bar position property not working correctly |
| TD-19896 | SAM_Destroy message is not received by modeless dialog when docked |
| TD-19930 | Destroying a window on SAM_Activate of another form has hanging issues |
| TD-19935 | IDE rendering usage issues |
| TD-19937 | Outline tree view disappears if minimized in an app |
| TD-19972 | SAM_Dock is not received when the window is moved from top to left in the corner |
| TD-19990 | Active Coding Assistant does not display right parameters when function from a functional class is used |
| TD-20017 | Scrolling issues in IDE when selecting lines past the visible display with the mouse |
| TD-20018 | Scrolling issues in IDE when moving lines past the visible display with alt/down-arrow |
| TD-20029 | Background color of pushbutton takes the theme color instead of the background of the form |
| TD-20056 | "when null string is passed from .Net to TD dll, setzerolengthstringtonull=on setting is ignored" |
| TD-20068 | Datafield Loses Focus with Sliding Docked Dlg |
| TD-20071 | The popup menu freezes at runtime on a tabbed form |
| TD-20087 | "Status bar of a dialog does not update CAP, NUM, SCROLL lock at runtime" |
| TD-20115 | VisTblSetRowColorEx sets the text colour using the background colour |
| TD-20116 | Row bitmaps are only painted when grid is scrolled |
| TD-20117 | Report crash when saved in 6.1 |
| TD-20155 | Background TEXT inheritance color not honored |
| TD-20186 | MDI Child flickers when mouse is hovered over the borders |
| TD-20188 | The border of a MDI child window is smaller than standard window |

Fixliste_TD6.1SP5.txt

size

TD-20205 ONLINE DOC does not mention COM out or in process cannot use any UI (MODAL DLG etc...)

TD-20210 Not possible to enter large number in small column when it is right justified

TD-20212 Dragging and Moving a Grid Column to the right side doesn't work correctly.

TD-20213 The title bar on an inactive MDI window displays actively with Windows 7 and windows Classic theme

TD-20214 WM_CHAR behaves differently on grid compared to other controls

TD-20231 "Component menu's sub menu ""Replaced"" not working correctly"

TD-20240 Moving a rich text field in Report Builder causes RB to crash

TD-20241 Focus field is incorrect after reactivating a form window

TD-20242 Not possible to reactivate an application from the taskbar if the application contains a docked dialog with focus

TD-20253 Enter key does not create a CRLF in a Multiline field if a button has Enter key as accelerator

TD-20270 Datafields with Background color as 3D Face Color changes font to bold unnecessarily

TD-20282 SalTabAddPageNoSelect makes the application hang if the grid on the page added hasn't got the summary bar enabled

TD-20286 """"Error encountered assembling"" a TD .NET web service"

TD-20292 SAM_AnyEdit is not being captured by DateTime Picker objects in .NET

TD-20296 When a form is minimized it is not possible to control the controls on another form

TD-20331 MDI child removes the caption during resize from the corners

TD-20332 SalStrLop removes null terminator from STRING_Null

TD-20377 Wrong Tool Tip

TD-20386 Report with Popup Edit Cell Type does not display

TD-20415 "with THEME_Office2007_R2_silver, the grid row becomes unreadable when the focus is not on the selected row"

TD-20442 Grid loses focus when editing drop down column

TD-20443 Loss of image quality when we use SalReportPrintToFileEx to print PDF file

TD-20455 Concatenation of SB fetched LONG NVARCHAR with TD string no longer works

TD-20459 VisTblSetColor doesn't work when inserting new rows

TD-20461 DOCK_None Toolbar random flickering

TD-20468 Top Level Menu Items cannot disable in .NET

TD-20471 Cannot evaluate constant in .NET debug mode

TD-20500 An object printed with Report Builder to RTF is smaller on XP as compared to windows 7

TD-20524 Print from Rich Text control displaying bad rendering with specific QRP

TD-20535 MS SS ODBC: Setting SqlUser = login name with an Umlaut/Finnish 'scand' character generates error where name is corrupted in TD's default SQL Error dlg. box display string

TD-20559 Axis2C webservice calling twice : Request to include a specific patch from AXIS2C

TD-20566 Report Builder ActiveX: buggy behavior when having a very large Page Header section in report

TD-20585 Double backslash constant '\\\' error in report formula

TD-20652 Add Transparent background attribute for Push Buttons and Option Buttons

TD-20679 Radio button check not repainted when using XP theme in specific scenario

TD-20689 Tabbing in grid cells makes TD crash
